BELLA VISTA, AR 72715**

**September, 2010**

**LORETO Homes built my home while I was living in another state. It went amazingly well via long distance due to Thomas Dixon and Greg Fullers' dedication to quality.**

**I think the best compliment a person can pay their builder is this: If I could start all over from scratch, would I have Thomas and Greg be my builders? Yes, I definitely would!**

**While my place was under construction numerous neighbors watched the progress and I heard many compliments about the building quality they saw. Previous owners on Parkridge Dr did not have the option to choose their own builder and I heard comments about how envious they were of Loreto Homes end result.**

**I'm also extremely pleased with the Energy Star Certification my home was granted. This requires exceptional construction, materials. My electricity bills have been very low even with the extremely hot summer.**

**My recommendation to people considering building in the area: Loreto Homes is a very sound choice.**
